Pieter Valcke

Graphic Designer at We Verify Cars
Oudenaarde, Flanders, Belgium

Summary

With We Verify Cars we want to tackle the problem around the maintenance history of the used cars.

For this we want to carry out a reliable VIN check on the cars of both car dealers and private individuals. Car dealers can not always figure out the history of a car and with our service we can guarantee the history of the car. In the future we want to apply a sticker on the cars that have been fully approved by our system as a kind of quality label.

Experience

We Verify Cars

Graphic Designer
November 2018- Present
